Subject: Call with EPA staff

Greetings Rockefeller staff!

I've arranged to make appropriate EPA Region 3 staff available to your office for a phone call on **Tuesday, January 21, at 2:30pm** to update you on the Freedom Industries chemical spill from the EPA's perspective and field any questions you may have.

If you have any specific questions you'd like to pass along to me before the call I'll make sure we are prepared to respond. The EPA appreciates the Senator's interest and efforts in this matter, and we are pleased for this opportunity to share information.

You'll be speaking with:

Fran Burns - Supervisory Environmental Engineer

William Arguto - Branch Chief, Drinking Water

Raquel Snyder - Congressional Liaison, Washington

Mark Ferrell - State & Congressional Liaison, West Virginia

I will arrange a conference call number and code and share that with you when it becomes available.

best

~Mark
